

MIDWEST
**TRAFFIC
CONTROLLERS**

Your partner in traffic control

CAPABILITY STATEMENT

Our Vision

Midwest Traffic Controllers aim to be the traffic control partner of choice throughout Western Australia providing effective traffic management solutions that meet Australian safety standards.

Company Profile

Midwest Traffic Controllers is a Western Australian owned company based in Geraldton with an expert team of efficient traffic control specialists dedicated to providing their clients with reliable, safe and efficient traffic control solutions. Developed with a structure that meets all the demands of the industry, Midwest Traffic Controllers have comprehensive policies in place that aim to provide a safe working environment for all involved.

With a solid reputation throughout the state, Midwest

Traffic Controllers can become your partner in traffic control for your next project. With an experienced team and the latest equipment they provide services including, project management, hazard planning and traffic management plans which are complimented by a personalised 24/7 service.

Offering fast response time, flexibility, competitive prices and comprehensive OH&S policies, Midwest Traffic Controllers are a cost effective and dependable choice for traffic management.

Services

With a full service offering, Midwest Traffic Controllers will develop a clear strategy and set objectives based on your specific traffic requirements.

Our team of traffic control experts will listen to your project requirements complete a site survey and present you with traffic management plan and follow through to implementation.

Traffic Management Services

- **Traffic Management Planning (TMP)** – using dedicated software you will be provided with a computerised plan that illustrates required signs, equipment and layout of all site specific requirements.
- **Project management** – we will implement your traffic management plan ensuring site conditions are in compliance with Australian Standards, a high level of safety is paramount for a successful TMP.
- **Hazard and job safety analysis** – our team will access the site, provide guidance, advice and a comprehensive plan to carry out a safe and controlled traffic project.
- **Consultation and liaison with local authorities** – long term relationships with local authorities means that our team can effectively communicate and negotiate throughout the project.

Traffic management Equipment

Midwest Traffic Controllers supply all signage, traffic control devices and equipment required for onsite traffic control in accordance with Australian Standards.

Equipment provided:

- Signage
- Vehicles
- Warning
- Road conditions
- Vehicle mounted flashing arrow board
- Barricades
- Mesh Fencing
